- d At about MR 340 970 an unidentified aerial has been observed, on occasions mounted on the roof of a large building. As far as can be ascertained, the aerial resembled an inverted rake-shaped, pronged array, with no further accurate details visible.

2. Airfield Refuse Dump:

A refuse dump has been observed at MR 350 970 at which trucks from the airfield have occasionally been observed depositing general refuse. This refuse dump is situated outside the normal airfield perimeter, but is frequently patrolled by Soviet Air Force sentries who are on normal guard duty along the perimeter.

3. Miscellaneous:

On at least three occasions during the reporting period a U-MIG-15 was observed flying around the airfield [REDACTED]
This aircraft was airborne when no other MIG-15's were flying.
